The following is an examiner's statement of reasons for allowance: Regarding claim 1, the closest prior art of record, Simoes (Fig. 1) does not disclose the following limitations: the amplifier comprising an input chopper coupler to the input of the amplifier and an output chopper coupled to the output of the amplifier. Regarding claims 4-7, the closest prior art of record, Simoes (Fig. 1) does not disclose the following limitations: the amplifier further comprising feedback means for further reducing the DC offset produced by the amplifier includes
